

LEED for Commercial Interiors (LEED-CI)

RH Ambio gives 5 (or 6) LEED points

LEED for Commercial Interiors offers building owners, tenants, designer and contractors a guideline for creating more efficient, healthier interior spaces that promote comfort and productivity. Points are distributed across 5 major credit categories, where 2 of the categories are relevant for RH.

RH Ambio contributes to green building projects as follow:

Materials and Resources (MR)

MR 2: Construction Waste Management

LEED intent: To divert construction and demolition debris in landfills and incineration facilities.

Redirect recyclable recovered resources back to the manufacturing process and reusable material to appropriate sites.

Result: RH Ambio has defined waste management for 100% (3 % for Energy recovery, 9,3 % Biodegradable and 87,7 % for Material recycling) of the product's components and materials.

LEED points: Gives 2 points (out of 2)

MR 4: Recycled Content

LEED intent: To increase demand for building products that incorporate recycled content materials, thereby reducing impacts resulting from extraction and processing of virgin materials.

Result: The RH Ambio contains 28 % post consumer recycled materials.

LEED points: Gives 2 points (out of 2)

MR 5: Regional Materials

LEED intent: To increase demand for building materials and product that are extracted and manufactured within the region, thereby supporting the regional economy and reducing the environmental impact resulting from transportation.

Result: RH products are manufactured in Nässjö, Sweden; Etten-Leur, Netherlands and London, United Kingdom.

LEED points: For building projects within a radius of 500 miles/800km from the RH manufacturing site RH products can contribute to give 1 point (out of 2), but this is dependent on the combined value of construction and Division 12 (Furniture) materials and products that are being used in the project.

Indoor Environmental Quality (IEQ)

IEQ 4.5: Low-Emitting Materials

LEED intent: To reduce the quantity of indoor air contaminants that are odorous, irritating and harmful to the comfort and well-being of installers and occupants.

Result: RH Ambio is GREENGUARD certified.

LEED points: Gives 1 point (out of 1)
