

CLIMATE DECLARATION FOR RH EXTEND 120

Functional unit: Seating solution manufactured and maintained for 15 years

The climate declaration shows the emissions of greenhouse gases, expressed as CO₂-equivalents. It is based on verified results from a lifecycle assessment (LCA), in accordance with ISO 14025.

Product

The RH Extend is a user friendly, ergonomic and durable chair range. It is ideal for workplaces where several people use the same chair or where it is necessary to make quick adjustments.

Company

RH Chairs is one of North Europe's leading manufacturers of ergonomic seating. RH Chairs was established 1977 in Bodafors, in the Småland region of Sweden, our plant is now located in Nässjö. Today we are established in Norway, Denmark, Finland, United Kingdom, France and the Netherlands, in addition to Sweden. RH manufacturing plant in Nässjö is certified in accordance with ISO 9001 and ISO 14001. RH Chairs is a part of Scandinavian Business Seating.

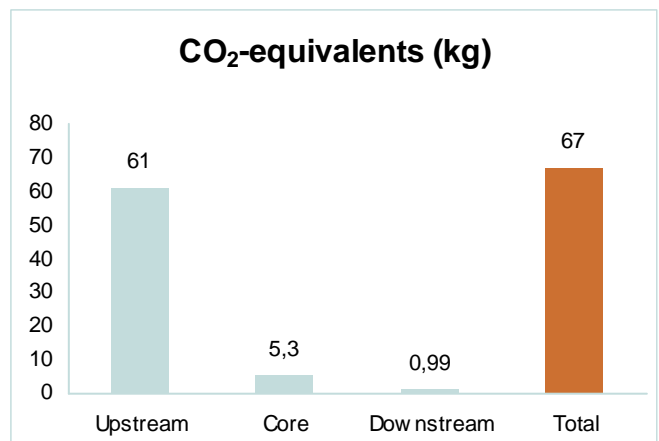

Climate declaration

The study includes production of materials and parts, assembly, transport to retail and use phase. Transportation between the processes and packaging production are included as well. The studied system also includes waste from the different life cycle phases.

The results are presented for the following modules: the upstream module includes production of raw materials, main parts and components, the core

module includes all production and assembly processes and the downstream module includes transport to the customer. No relevant environmental impact occurs during the use of the product. Recycling of the product is not included.

The result is presented for one chair including production and use during 15 years.

Other environmental information
